Proje amacımız

Trafik, hepimizi ilgilendiren sosyal ve hayati bir konudur. Erken yaşta trafik eğitimi, günümüz trafik kültürünü önemli ve olumlu yönde etkileyecektir. Belli yaş grupları, özellikle 10-13 yaş grubu, en riskli gruplar arasındadır. Bu projede olmak yayalar veya yolcu olarak onlara konuyu yaşayarak öğrenme fırsatı sağlayacaktır. Bu yaş grubunun enerjisini ve ilgisini bu konuya yönlendirmek için trafik üzerine bir proje hedefledik. Bu projede önceliğimiz bu yaş grubunun trafik kültüründe karşılaştığı trafik işaret ve tabelalarını günlük olarak öğrenmesini sağlamak olacaktır.

eTwinning Proje Tanıtımları için toplantılar düzenlendi ve hem eTwinning portalı, twinspace hem de proje tanıtımları yapıldı

About Our Project

Traffic culture is a social and vital issue that concerns all of us. Traffic education at an early age affects today's traffic culture. Children between the ages of 10-14 are at high risk in traffic accidents worldwide. The reason that is this age group only learns the traffic culture theoretically in schools. Our aim is to create an active learning environment by using web 2.0 tools and provide permanent information about traffic culture

Our Goals:

1. To teach theoretical knowledge with student-centered approach
2. To teach this culture with technological equipments and visuals
3. To ensure the transfer of information to life
4. To influence large masses positively by spreading the traffic activities
5. To increase students' self-confidence
6. To contribute to the language development of students
7. To make new friends and recognize new cultures
